California House CR550 Spectator Chairs are some of the most comfortable chairs in the industry. They are made in the U.S., and, unfortunately, that means you pay for it (although with tariffs, the price is becoming more reasonable). The quality, however, is second to none. My personal favorite is the Oak with Cowboy Leather, but there are so many finishes and cloth and leather choices, you can fit these beautiful chairs

in any room. As shown, these chairs are \$2,550 each. Cloth is also available and will save approximately \$400 per chair. These are lifetime purchases and certainly fit the category of fine furnishing, so the price is commensurate with the quality and functionality.

California House also produces beautiful bar-height seating and gaming tables as well, so if that is where your game room is headed, take a look at these beautiful chairs and consider them for your game room.

Poker Tables have their own PDF available upon request.
