The Olhausen Breckenridge Wall & Floor Rack storage options are shown below in the Breckenridge (Dark Brown) finishes, but they are worth considering, especially when you are located far from any cue-tip repair service.

We often recommend a supply of slip-on tips for those in remote locations. Keeping your cues upright is the best way to care for them, and Olhausen offers beautifully hand-made wall and floor racks for that purpose.

Shown below is the top and bottom of the one-piece Wall Rack (\$695 when ordered with the table, \$849 ordered separately); the Floor Rack is an excellent option if wall space is at a premium (shown Left). There are two floor options, the standing floor rack (you must raise the cue up to

place it in the rack, so a high ceiling is required) or the Breckenridge Premium Floor Stand, a beautiful piece (shown Above). The two-piece wall rack is \$250; simple, but effective.

\$849; \$995 purchased separately
